WEBMASTER

Managing web servers, sites and systems since 1999. I particularly enjoy inheriting older sites that need a bit of TLC (so don't we all?). Google Workspace Administrator for an 800 user Google Workspace since 2020. I am fluent in BASH, HTML, CSS and GAMADV. I can configure email domains to be DMARC compliant. Broderbund, Mattel Interactive, and Peet's Coffee are a few of the companies I've worked for. I am passionate about **Accessibility**.
